Aglossia-adactylia syndrome (Nevin, Dodge, and Kernohan), 443
Air contamination during use of air turbine handpieces, preoperative oral rinsing as means of reducing (Mohammed and Monserrate), 291
  generated by high-speed drill, use of antimicrobial mouthwash to minimize (Litsky, Mascis, and Litsky), 25
Alkaptonuria (ochronosis) and parkinsonism, discoloration of teeth in (Siekert and Gibilisco), 197
Alveolar mucosa, intertransplantation (Smith), 328
  plate fenestrations and dehiscences of human skull (Larato), 816
Ameloblastoma, mandibular, with intracerebral and pulmonary metastasis (Harrer and Patchefsky), 893
  of maxilla with probable origin in residual cyst (Lee), 799
American Academy of Oral Pathology, abbreviated case reports, 877
  announcement, 480
  section, 60, 397, 552, 718, 869
American Association of Endodontists, 162, 480 (Announcements)
Analgesia, neurolept (Jackson and Sazima), 206
Ananase; evaluation of two proteolytic enzymes and critique of clinical study (Marlette and Amen), 249
Anemia, aplastic, chloramphenicol-induced (Shepherd and Samaras), 689
Anesthesiology, 206
Aneurysm of facial vein (Poyton and Arora), 390
Announcements, 162, 320, 480, 640, 786, 950
  special, 321
Aphthous ulcers, association between smoking and (Chellemi, Olson, and Shapiro), 832
Armed Forces Institute of Pathology, 320 (Announcement)

B

Bacterial aerosol contamination generated by high-speed drill, use of antimicrobial mouthwash to minimize (Litsky, Mascis, and Litsky), 25
Berkshire Conference in Periodontology and Oral Pathology, 786 (Announcement)
Bleaching tetracycline-stained vital teeth (Cohen and Parkins), 465
Bleeding; bone wax as effective hemostat in periapical surgery (Selden), 262
Block-Sultzburger, Block-Seimens disease: incontinentia pigmenti (Foster and Album), 837
Bone fragment, displaced, unerupted teeth in, 59 (Roentgeno-oddities)
  marrow transplants, autogenous, in rat (Bhaskar, Cutright, and Boyers), 472
  wax as effective hemostat in periapical surgery (Selden), 262
Buccal fat pad, herniation (Browne), 181

C

Cancer; lump in neck (Engelman and Farr), 19
  systemic, influence on oral tissues (Stern), 229
  thyroid, rare localization of metastasis (Soumar, Haisova, and Hanek), 513
Carcinogenesis, chemical, of rat salivary glands, effect of cold stress (Turbiner, Shklar, and Cataldo), 130
Carcinoma, adenoid cystic, of floor of mouth presenting by metastases (Forman), 1

January, pp. 1-162; February, pp. 163-320; March, pp. 321-480; April, pp. 481-640; May, pp. 641-788; June, pp. 789-966.

Carcinoma—Cont'd
basal-cell, keratocysts, skeletal anomalies, ichthyosis, and defective response to parathyroid hormone in patient without (Bang), 242
epidermoid, early changes (Dick and McMurchy), 883
gastric, associated with acanthosis nigricans maligna (Bang), 370
oral, avoidance of osteoradionecrosis of mandible after extraction of number of teeth in patient given radiotherapy for (Narang and Wells), 656
Cements, plastic, tissue reaction to root canal fillings with (Erausquin and Muruzábal), 91
silicate, pulpal irritation due to phosphoric acid component of (Johnson et al.), 447
Chelating agents, acids, and alkalies, effects on dentine permeability (Cohen, Stewart, and Laster), 631
Chloramphenicol-induced aplastic anemia (Shepherd and Samaras), 689
Chondroma of tongue (Viglioglia and Stirparo), 820
Cleft uvula; minor craniofacial anomalies among Negro population (Schaumann, Peagler, and Gorlin), 566
Cold stress, effect on chemical carcinogenesis of rat salivary glands (Turbiner, Shklar, and Cataldo), 130
Condyle, mandibular, dislocation into middle cranial fossa (Pirok and Merrill), 13
Connective tissues, RNA synthesis of, in sponge implants, effects of varying concentrations of formocresol (Straffon and Han), 915
Continuing education courses, 786 (Announcement)
Coronoid process, mandibular, bilateral hyperplasia (Fitzpatrick), 184
longitudinal fracture (Brener and Alley), 676
Craniofacial anomalies, minor, among Negro population (Schaumann, Peagler, and Gorlin), 566, 729
Cusp, talon (Mellor and Ripa), 225
Cyst, dental lamina, etiology and vascularization (Maher and Swindle), 590
odontogenic, calcifying (Russell and Corkery), 877
granular-cell (Gold and Christ), 437
residual, ameloblastoma of maxilla with probable origin in (Lee), 799
Cystic fibrosis; bleaching of tetracycline-stained vital teeth (Cohen and Parkins), 465

D

Decortication in treatment of osteomyelitis of mandible (Hjørting-Hansen), 641
Dehiscences and fenestrations, alveolar plate, of human skull (Larato), 816
Dental facilities in Massachusetts, dosimetric evaluation of thirty (Kline et al.), 44
lamina cysts, etiology and vascularization (Maher and Swindle), 590
radiography, samarium filters for (Richards et al.), 704
transplants, autogenous, experiments in dogs (Gamal), 935
Dentinal bridging, 866 (Roentgeno-oddities)
midroot, 550 (Roentgeno-oddities)
Dentine bridge, reparative, morphology (Clarke), 746
permeability, effects of acids, alkalies, and chelating agents (Cohen, Stewart, and Laster), 631
Dentition, developing human, histologic criteria for age estimation (Calonius, Lunin, and Stout), 869
Dentofacial disharmonies requiring surgical correction, cephalometric evaluation of patients with (Khouw, Proffit, and White), 789
Diagnosis of diseases of pulp (Baume), 102
lateral tomography of zygoma (Rothstein), 861
Dietary management of patient with fractured jaw (Byrne and Byrne), 666
Dislocation of mandibular condyle into middle cranial fossa (Pirok and Merrill), 13
Dosimetric evaluation of thirty dental facilities in Massachusetts (Kline et al.), 44
Dosimetry, comparative thermoluminescent, of intraoral periapical radiography (Weissman and Sobkowski), 376
Drill, air turbine, preoperative oral rinsing as means of reducing air contamination during use (Mohammed and Monserrate), 291
high-speed, use of antimicrobial mouthwash to minimize bacterial aerosol contamination generated by (Litsky, Mascis, and Litsky), 25

E

Edema, experimental, production in dog tongue with dilute hydrogen peroxide (Dorman and Bishop), 38
Electrosurgery, electron microscopic evaluation (Eisenmann, Malone, and Kusek), 660
Enamel formed in presence of fluoride and molybdenum, microradiography (Kruger), 544
Endodontics, 91, 249, 447, 603, 746, 899
Enzymes, proteolytic, evaluation of two, and critique of clinical study (Marlette and Amen), 249
Eruption, atypical, of mandibular second premolars, 223 (Roentgeno-oddities)
Ewing's tumors of jaws (Potdar), 505

F

Face, unusual sequela of gunshot wound (Wood, Barresi, and Stuteville), 812

Facial involvement in Weber-Christian disease (Ashamalla and Huebsch), 518
nerve paralysis in Melkersson-Rosenthal syndrome (Nally), 694
vein, aneurysm (Poyton and Arora), 390
wounds, modified delayed closure with isobutyl cyanoacrylate (Hunsuck, Cutright, and Bhaskar), 305
Federal dental services section, 138, 291
Fenestrations and dehiscences, alveolar plate, of human skull (Larato), 816
Fibroma, recurrent ameloblastic (Carr et al.), 85
Fillings (*See* Root canal)
Fistula, oronasal, of 40 years' duration, surgical approach (Wolf et al.), 9
Fluoride and molybdenum, microradiography of enamel formed in presence of (Kruger), 544
"Flying saucers" in sinus, 716 (Roentgeno-oddities)
Foley catheter, utilization in midfacial fracture reduction (Alexander, Taylor, and Kramer), 481
Foramen and nerve, anomalous, in mandible (Dictrow et al.), 117
Formocresol as root canal medicament, quantitation (Wesley, Marshall, and Rosen), 603
effects of varying concentrations on RNA synthesis of connective tissues in sponge implants (Straffon and Han), 915
Fractures; healing of dog mandibles following surgical loss of continuity (Huebsch and Kennedy), 178
jaw, dietary management of patient with (Byrne and Byrne), 666
longitudinal, of coronoid process of mandible (Brener and Alley), 676
mandibular; dislocation of mandibular condyle into middle cranial fossa (Pirok and Merrill), 13
midfacial, use of Foley catheter in reduction (Alexander, Taylor, and Kramer), 481
Fusion and gemination, 394 (Roentgeno-oddities)

G

Gingiva, intertransplantation (Smith), 169
Gingival hemorrhage secondary to uremia (Merril and Peterson), 530
Gingivitis, desquamative (Chellemi and Biddix), 201
Grafts in surgical correction of micrognathia and microgenia (Goldberg and Himmelfarb), 163
mucosal; surgical approach to oronasal fistula of 40 years' duration (Wolf et al.), 9
thin split-thickness, in periodontal surgery, technique for obtaining (Rees and Brasher), 148
Gunshot wound of face, unusual sequela (Wood, Barresi, and Stuteville), 812

H

Handpieces, air turbine, air contamination during use of, preoperative oral rinsing as means of reducing (Mohammed and Monserrate), 291
Healing of dog mandibles following surgical loss of continuity (Huebsch and Kennedy), 178
Hemorrhage, gingival, secondary to uremia (Merril and Peterson), 530
Hemostat, bone wax as, in periapical surgery (Selden), 262
Herniation of buccal fat pad (Browne), 181
Herpes simplex, primary (Nally and James), 680
Hydrogen peroxide, dilute, in production of experimental edema in dog tongue (Dorman and Bishop), 38
Hyperplasia, bilateral, of mandibular coronoid process (Fitzpatrick), 184

I

Ichthyosis, keratocysts, skeletal anomalies, and defective response to parathyroid hormone in patient without basal-cell carcinoma (Bang), 242
Incontinentia pigmenti: Block-Sultzburger, Block-Seimens disease (Foster and Album), 837
Infections, bone and soft-tissue; lincomycin in oral surgery (Khosla), 485
Intertransplantation of alveolar mucosa (Smith), 328
of gingiva (Smith), 169
Isobutyl cyanoacrylate in modified delayed closure of facial wounds (Hunsuck, Cutright, and Bhaskar), 305
oral spray, and its systemic effect (Bhaskar et al.), 313

J

Jaws, Ewing's tumors of (Potdar), 505
fractured, dietary management of patient with (Byrne and Byrne), 666

K

Keratocysts, skeletal anomalies, ichthyosis, and defective response to parathyroid hormone in patient without basal-cell carcinoma (Bang), 242
Keratoses, congenital, of oral mucous membranes, electron microscopic examination (Whitten), 69

L

Lead poisoning, experimental, salivary glands in (Gardner and Kenny), 365
Leukemia in children, oral manifestations (White), 420
Leukodystrophy, metachromatic, oral findings (Gardner and Zeman), 431
Lichen planus or leukoplakia (Eggleston), 849

XUM

Lincomycin in oral surgery (Khosla), 485
Lip enlargement in Melkersson-Rosenthal syndrome (Nally), 694
pits, commissural; minor craniofacial anomalies among Negro population (Schaumann, Peagler, and Gorlin), 566
Lump in neck (Engleman and Farr), 19
Lupus erythematosus—oral manifestations (Martin), 846
Lymph nodes of head and neck; lump in neck (Engelman and Farr), 19
Lymphoid lesions, benign, of oral mucosa (Doyle, Weisinger, and Manhold), 31

M

Macrodontism, bilateral, of mandibular third molars with impaction of second molars, 717 (Roentgeno-oddities)
Mandible, ameloblastoma with intracerebral and pulmonary metastasis (Harrer and Patchefsky), 893
anomalous foramen and nerve in (Dictrow et al.), 117
avoidance of osteoradionecrosis after extraction of number of teeth in patient given radiotherapy for oral carcinoma (Narang and Wells), 656
coronoid process, benign hyperplasia (Fitzpatrick), 184
longitudinal fracture (Brener and Alley), 676
dislocation of condyle into middle cranial fossa (Pirok and Merrill), 13
dog, healing following surgical loss of continuity (Huebsch and Kennedy), 178
osteomyelitis, decortication in treatment (Hjørting-Hansen), 641
prognathism corrected by open oblique sliding osteotomy of rami (Robinson), 323
rare localization of thyroid cancer metastasis (Soumar, Haisova, and Hanek), 513
subperiosteal osteomyelitis (Killey, Kay, and Wright), 576
Maxilla, ameloblastoma with probable origin in residual cyst (Lee), 799
Melkersson-Rosenthal syndrome (Nally), 694
Microcirculation of perioral regions in *Macaca rhesus* (Cutright and Hunsuck), 776, 926
Micrognathia and microgenia, surgical correction (Goldberg and Himmelfarb), 163
Microradiography of enamel formed in presence of fluoride and molybdenum (Kruger), 544
Migrainous neuralgia, periodic (Eggleston), 524
Molybdenum and fluoride, microradiography of enamel formed in presence of (Kruger), 544
Mouth, adenoid cystic carcinoma of floor of, presenting by metastases (Forman), 1
Mouth—Cont'd
opening, limitation; bilateral hyperplasia of mandibular coronoid process (Fitzpatrick), 184
Mouthwash, antimicrobial, use to minimize bacterial aerosol contamination generated by high-speed drill (Litsky, Mascis, and Litsky), 25
preoperative use as means of reducing air contamination during use of air turbine handpiece (Mohammed and Monserrate), 291
Myoblastoma, granular-cell, of oral cavity (Herschfus and Wolter), 341

N

Natal canine and molar in infant (Tay), 598
National x-ray exposure study, 787 (Announcement)
Neck, lump as symptom of cancer (Engleman and Farr), 19
Negroes, minor craniofacial anomalies (Schaumann, Peagler, and Gorlin), 566, 729
Nerve and foramen, anomalous, in mandible (Dictrow et al.), 117
Neuralgia, periodic migrainous (Eggleston), 524
Neurolept analgesia (Jackson and Sazima), 206
Nevus, blue, of oral cavity (Kjaerheim, Martinez, and Montes), 718
white sponge (Whitten), 69

O

Ochronosis (alkaptonuria) and parkinsonism, discoloration of teeth in (Siekert and Gibilisco), 197
Odontodysplasia (Galeone, Philips, and Pincock), 879
Odontoma, ameloblastic (Dutta), 827
midpalatal compound, in infant (Hunsuck), 353
Odontomes, familial compound composite (Browne), 428
Oral cavity, blue nevus (Kjaerheim, Martinez, and Montes), 718
granular-cell myoblastoma (Herschfus and Wolter), 341
findings in metachromatic leukodystrophy (Gardner and Zeman), 431
manifestations of leukemia in children (White), 420
of lupus erythematosus (Martin), 846
of paraneoplasia; acanthosis nigricans maligna (Bang), 370
medicine, 25, 191, 356, 518, 680, 832
mucosa, benign lymphoid lesions (Doyle, Weisinger, and Manhold), 31
mucous membranes, congenital keratoses of, electron microscopic examination (Whitten), 69
pathology—American Academy of Oral Pathology, 60, 397, 552, 718, 869

Oral pathology—Cont'd
general section, 85, 225, 428, 576, 735, 883
rinsing, preoperative, as means of reducing air contamination during use of air turbine handpieces (Mohammed and Monserrate), 291
roentgenology, 44, 212, 376, 536, 704, 855
surgery, lincomycin in (Khosla), 485
operative, 1, 163, 323, 481, 641, 789
symptoms and signs versus daily vitamin E consumption (Cheraskin and Ringsdorf), 361
tissues, influence of systemic cancer on (Stern), 229
tonsils: location, distribution, and histology (Knapp), 155
pathology of (Knapp), 295
Orenzyme; evaluation of two proteolytic enzymes and critique of clinical study (Marlette and Amen), 249
Oronasal fistula of 40 years' duration, surgical approach (Wolf et al.), 9
Orthodontics, surgical, conference, 788 (Announcement)
Osteomyelitis, gram-negative (Halsband, Maloney, and Doku), 806
of mandible, decortication in treatment (Hjørting-Hansen), 641
subperiosteal, of mandible (Killey, Kay, and Wright), 576
syphilitic, as cause of oronasal fistula of 40 years' duration (Wolf et al.), 9
Osteoradionecrosis of mandible, avoidance after extraction of number of teeth in patient given radiotherapy for oral carcinoma (Narang and Wells), 656
Osteosclerosis, 395 (Roentgeno-oddities)
Osteotomy, open oblique sliding, of mandibular rami in correction of prognathism (Robinson), 323

P

Pain; neurolept analgesia (Jackson and Sazima), 206
periodic migrainous neuralgia (Eggleston), 524
Paraneoplasia with oral manifestations; acanthosis nigricans maligna (Bang), 370
Parathyroid hormone, defective response to, keratocysts, skeletal anomalies, and ichthyosis in patient without basal-cell carcinoma (Bang), 242
Parkinsonism, discoloration of teeth in alkaptonuria (ochronosis) and (Siekert and Gibilisco), 197
Parotid gland volume, clinical roentgenologic method of calculating (Ericson and Hedin), 536
Pathologic entities, multiple, observed on single film, 223 (Roentgeno-oddities)
Pathology, pulpal, registry suggested (Stanley), 265
Periapical lesions, large, conservative reduction (Freedland), 455
radiography, intraoral, comparative thermoluminescent dosimetry (Weissman and Sobkowski), 376
responses to pulpal injury, autoradiographic evaluation (Stahl, Tonna, and Weiss), 270
surgery, bone wax as effective hemostat (Selden), 262
tissue reaction to root canal filling with paste containing 7 per cent trioxymethylene (Bordoni and Erausquin), 907
Periodontal surgery, technique for obtaining thin split-thickness grafts (Rees and Brasher), 148
Phocomelia, upper, anomalies of teeth in child with (Hammarström, Henrikson, and Larsson), 191
Phosphoric acid component of silicate cement as cause of pulpal irritation (Johnson et al.), 447
Plastic cements, tissue reactions to root canal fillings with (Erausquin and Muruzábal), 91
Polyvinyl and polyethylene tubing in conservative reduction of large periapical lesions (Freedland), 455
Preauricular pits; minor craniofacial anomalies among Negro population (Schaumann, Peagler, and Gorlin), 566
Prognathism corrected by open oblique sliding osteotomy of mandibular rami (Robinson), 323
Pulp capping in deciduous and newly erupted permanent teeth of monkeys (Weiss and Bjorvatn), 769
diseases, diagnosis (Baume), 102
irritation due to phosphoric acid component of silicate cement (Johnson et al.), 447
vitality, determination by thermographic means using cholesteric liquid crystals (Howell, Duell, and Mullaney), 763
Pulpal injury, autoradiographic evaluation of periapical responses (Stahl, Tonna, and Weiss), 270
pathology registry suggested (Stanley), 265

R

Radiography, dental, samarium filters for (Richards et al.), 704
high-speed dental, rectification and (Thomas and Graham), 216
intraoral periapical, comparative thermoluminescent dosimetry (Weissman and Sobkowski), 376
panoramic localization (Turk and Katzenell), 212
Radiopacity, iatrogenic, 866 (Roentgeno-oddities)

XUM

Radiotherapy for oral carcinoma, avoidance of osteoradionecrosis of mandible after extraction of number of teeth in patient given (Narang and Wells), 656
Reparative dentine bridge, morphology (Clarke), 746
Replantation and transplantation of teeth (Natiella, Armitage, and Greene), 397
survival rate of replanted teeth (Grossman and Ship), 899
Research, 120, 275, 472, 635, 776, 926
projects, clinical and basic, their planning and support (Church), 282
Resorption (*See* Root resorption)
RNA synthesis of connective tissues in sponge implants, effects of varying concentrations of formocresol (Straffon and Han), 915
Roentgenograms; multiple pathologic entities observed on single film, 223 (Roentgeno-oddities)
Roentgeno-oddities, 59, 222, 394, 549, 716, 866
Root, bifurcated, of upper central incisor, 222 (Roentgeno-oddities)
canal fillings, fluorometric assay of apical seal (Ainley), 753
with paste containing 7 per cent trioxymethylene, periapical tissue reaction (Bordoni and Erausquin), 907
with plastic cements, tissue reaction (Erausquin and Muruzábal), 91
irrigant, bactericidal efficiency of sodium hypochlorite (Shih, Marshall, and Rosen), 613
medicament, quantitation of formocresol as (Wesley, Marshall, and Rosen), 603
sealers, flow rate of ten (Weisman), 255
displaced, in maxillary sinus (Lee), 491
formation, stimulation of, in incompletely developed pulpless teeth (Heithersay), 620
resorption, idiopathic (Soni and La Velle), 387
multiple (Kerr et al.), 552

S

Salivary glands; adenoid cystic carcinoma of floor of mouth presenting by metastases (Forman), 1
in experimental lead poisoning (Gardner and Kenny), 365
minor, intraoral tumors (Crocker, Cavalaris, and Finch), 60
rat, effect of cold stress on chemical carcinogenesis (Turbiner, Shklar, and Cataldo), 130
Samarium filters for dental radiography (Richards et al.), 704
Sclerosing solution, histologic response of rat submandibular glands to intraglandular administration (Rabin, Murnane, and Doku), 635
Shira, Robert B., assumes editorship, 321 (Special announcement)
Silicate cement, phosphoric acid component as cause of pulpal irritation (Johnson et al.), 447
Sinus, "flying saucers" in, 716 (Roentgeno-oddities)
maxillary, displaced root in (Lee), 491
Skeletal anomalies, keratocysts, ichthyosis, and defective response to parathyroid hormone in patient without basal-cell carcinoma (Bang), 242
Skull, human, alveolar plate fenestrations and dehiscences (Larato), 816
Smoking and aphthous ulcers, association between (Chellemi, Olson, and Shapiro), 832
Sodium hypochlorite as endodontic irrigant, bactericidal efficiency (Shih, Marshall, and Rosen), 613
morrhuate; histologic response of rat submandibular glands to intraglandular administration of sclerosing solution (Rabin, Murnane, and Doku), 635
Sore throat therapy (Zacharski and Davis), 356
Submandibular glands, rat, histologic response to intraglandular administration of sclerosing solution (Rabin, Murnane, and Doku), 635
Surgery (*See also* Oral surgery)
periapical, bone wax as effective hemostat (Selden), 262
periodontal, technique for obtaining thin split-thickness grafts (Rees and Brasher), 148
Surgical anatomy and physiology, 38
approach to oronasal fistula of 40 years' duration (Wolf et al.), 9
correction of micrognathia and microgenia (Goldberg and Himmelfarb), 163
patients with dentofacial disharmonies requiring, cephalometric evaluation (Khouw, Proffit, and White), 789
orthodontics conference, 788 (Announcement)
Swallowing, tongue-thrust, radiographic analysis (Parker, Chalkin, and Zohn), 855
Swelling, postoperative, evaluation of two proteolytic enzymes used to control (Marlette and Amen), 249
Syphilitic osteomyelitis as cause of oronasal fistula of 40 years' duration (Wolf et al.), 9

T

Talon cusp (Mellor and Ripa), 225
Taurodontia, 549 (Roentgeno-oddities)
Teeth, anomalies, in child with upper phocomelia (Hammarström, Henrikson, and Larsson), 191
atypical eruption of mandibular second premolars, 223 (Roentgeno-oddities)
bifurcated root of upper central incisor, 222 (Roentgeno-oddities)

Teeth—Cont'd
bilateral macrodontism of mandibular third molars with impaction of second molars, 717 (Roentgeno-oddities)
cobalt-60-irradiated, allogeneic transplants using, in monkeys (Nordenram and Bergman), 944
deciduous and newly erupted permanent, of monkeys, pulp capping in (Weiss and Bjorvatn), 769
discoloration, in alkaptonuria (ochronosis) and parkinsonism (Siekert and Gibilisco), 197
extraction, in patient given radiotherapy for oral carcinoma, avoidance of osteoradionecrosis of mandible after (Narang and Wells), 656
fusion and gemination, 394 (Roentgeno-oddities)
impacted, incidence (Kramer and Williams), 237
natal canine and molar in infant (Tay), 598
pulpless, incompletely developed, stimulation of root formation (Heithersay), 620
replantation and transplantation of teeth (Natiella, Armitage, and Greene), 397
replanted, survival rate (Grossman and Ship), 899
supernumerary mandibular lateral incisor, 395 (Roentgeno-oddities)
transplantation; experiments with autogenous dental transplants in dogs (Gamal), 935
vital, stained by tetracycline, bleaching (Cohen and Parkins), 465
Temple University School of Dentistry, 640 (Announcement)
Tetracycline-stained vital teeth, bleaching (Cohen and Parkins), 465
Thalidomide embryopathy; anomalies of teeth in child with upper phocomelia (Hammarström, Henrikson, and Larsson), 191
Thermography using cholesteric liquid crystals in determination of pulp vitality (Howell, Duell, and Mullaney), 763
Thoma, Kurt H., elevated to Editor Emeritus, 321 (Special announcement)
Thymidine, tritiated, use in autoradiographic interpretation of tumor proliferation, factors relating to (Smiler), 120
Thyroid cancer metastasis, rare localization (Soumar, Haisova, and Hanek), 513
Tomography, lateral, of zygoma (Rothstein), 861
Tongue; aglossia-adactylia syndrome (Nevin, Dodge, and Kernohan), 443
anomalies; minor craniofacial anomalies among Negro population (Schaumann, Peagler, and Gorlin), 729
chondroma (Viglioglia and Stirparo), 820
Tongue—Cont'd
dog, production of experimental edema with dilute hydrogen peroxide (Dorman and Bishop), 38
lesions in Melkersson-Rosenthal syndrome (Nally), 694
tooth and bullet fragment in, unusual sequela of gunshot wound of face (Wood, Barresi, and Stuteville), 812
Tongue-thrust swallowing habit, radiographic analysis (Parker, Chalkin, and Zohn), 855
Tonsils, oral: location, distribution, and histology (Knapp), 155
pathology of (Knapp), 295
Tooth anomalies; talon cusp (Mellor and Ripa), 225
transplants (*See* Transplants)
unerupted, in displaced bone fragment, 59 (Roentgeno-oddities)
Torus mandibularis and palatinus; minor craniofacial anomalies among Negro population (Schaumann, Peagler, and Gorlin), 566
Transplantation and replantation of teeth (Natiella, Armitage, and Greene), 397
of alveolar mucosa with gingival sites (Smith), 328
of gingiva (Smith), 169
Transplants, allogeneic, using cobalt-60-irradiated teeth in monkeys (Nordenram and Bergman), 944
autogenous bone marrow, in rat (Bhaskar, Cutright, and Boyers), 472
dental, experiments in dogs (Gamal), 935
tooth, x-irradiated, tissue response (Fong and Berger), 275
Trioxymethylene, 7 per cent, periapical tissue reaction to root canal filling with paste containing (Bordoni and Erausquin), 907
Tufts University School of Dental Medicine, 786 (Announcement)
Tumor, ameloblastic adenomatoid (Burzynski et al.), 880
Ewing's, of jaws (Potdar), 505
intraoral minor salivary gland (Crocker, Cavalaris, and Finch), 60
proliferation, factors relating to use of tritiated thymidine in autoradiographic interpretation (Smiler), 120

U

Ulcers, aphthous, association between smoking and (Chellemi, Olson, and Shapiro), 832
University of Pennsylvania, 320, 640 (Announcements)
Uremia, gingival hemorrhage secondary to (Merril and Peterson), 530

XUM

V

Vanderbilt University, 320 (Announcement)
Vasculature; microcirculation of perioral regions in *Macaca rhesus* (Cutright and Hunsuck), 776, 926
Vein, facial, aneurysm (Poyton and Arora), 390
Vitamin E consumption, daily, relationship of reported oral symptoms and signs versus (Cheraskin and Ringsdorf), 361

W

Weber-Christian disease with facial involvement (Ashamalla and Huebsch), 518

X

X-ray exposure; dosimetric evaluation of thirty dental facilities in Massachusetts (Kline et al.), 44
levels; comparative thermoluminescent dosimetry of intraoral periapical radiography (Weissman and Sobkowski), 376
study, 787 (Announcement)

YOUNIS, NABIL. (*See* EL-ASHIRY, EL-KAFRAWY, NASR, AND YOUNIS), 472

Subject index

A

Acids, effects upon pathologic interpretation of widths of collagen bundles in bone (Giansanti), 151
Acrylic splint for intentional replantation (Biven, Ritchie, and Gerstein), 537
Adenoameloblastoma, enzymes in, histochemical observations (Mori, Tamura, and Kawakatsu), 659
(odontogenic adenomatoid tumor) (Giansanti, Someren, and Waldron), 69
Adenocarcinoma, metastatic, amalgam in, 67 (Roentgeno-oddities)
Albumin, denatured, reaction of pulp tissue to direct cappings with (Molven), 413
Aluminum oxide and other metallic oxides, periapical tissue reaction to root canal fillings with (Erausquin), 545
Alveolar bone loss, ecology (Cheraskin and Ringsdorf), 333
Alveolodental ankylosis induced by root canal treatment in rat molars (Erausquin and Devoto), 105
Amalgam in metastatic adenocarcinoma, 67 (Roentgeno-oddities)
Amelogenesis imperfecta in case of consanguinity (Catena et al.), 207
American Academy of Oral Medicine, 847 (Announcement)
American Academy of Oral Pathology, 69, 222, 381, 508, 649, 784
new officers, 786
proceedings of annual meeting, 784
American Association of Endodontists, 159, 299 (Announcements)
American Board of Oral Medicine, 721, 846 (Announcements)
American Board of Oral Surgery, 721, 846 (Announcements)
American Society of Cytology, 300, 444 (Announcements)
American Society of Oral Surgeons, 300 (Announcement)
Anatomy, apical root canal, of human maxillary central incisors (Altman et al.), 694
Anesthetics; tracing course of mandibular block injection (Galbreath and Eklund), 571
Ankylosis, alveolodental, induced by root canal treatment in rat molars (Erausquin and Devoto), 105
Announcements, 159, 299, 444, 583, 721, 846
Anodontia, partial, in Rieger's syndrome (Langdon), 788
developmental absence of maxillary permanent cuspids, 647 (Roentgeno-oddities)
Antimicrobial effectiveness of parachlorophenol (Harrison and Madonia), 267
Aphthous stomatitis, recurrent, and Behçet's disease (Francis), 476
ulcers, association between smoking and (Shapiro, Olson, and Chellemi), 624
Artifact in mandible, 220 (Roentgeno-oddities)

B

Bacid in treatment of oral ulcerations (Gertenrich and Hart), 196
Bacteremia associated with extraction of teeth, control of (Jones et al.), 454
Bacterial endocarditis, fatal, following tooth removal (Salman, Harrigan, and Palladino), 749
Behçet's disease and recurrent aphthous stomatitis (Francis), 476
Bellevue Oral Surgery Alumni Society, 722 (Announcement)
Biologic effects of endodontic procedures on developing incisor teeth (Torneck and Smith), 258
Bio-Research Institute, 583, 721 (Announcements)

July, pp. 1-160; August, pp. 161-302; September, pp. 303-444; October, pp. 445-586; November, pp. 587-722; December, pp. 723-864.

XUM

Bone and cementum, pattern and width of collagen bundles in (Giansanti), 508
cysts (*See* Cysts)
destruction and idiopathic gingival fibromatosis in 12-year-old boy (Fritz), 755
facial, fractures associated with cervical spine injuries (Haisová and Krámová), 742
fractures (*See* Fractures)
grafts; application of lyophilized homogenous osseous-dental transplants to large bones in rabbits and monkeys (Spirescu et al.), 438
augmentation, for correction of mandibular asymmetry (Marano, Kolodny, and Smart), 759
decalcified allogenic, improved healing of experimental defects in canine mandible by (Narang et al.), 142
immediate, following resection of mandibular osteomyelitic lesion (Khosla), 29
loss, alveolar, ecology (Cheraskin and Ringsdorf), 333
postoperative osteogenic capacity of periosteum; surgical removal of large osteofibromas (Budal), 303
bone specimens, controlled demineralization (Winkler, Jung, and Carr), 717
widths of collagen bundles in, effects of acids upon pathologic interpretation (Giansanti), 151
Book reviews, 158, 848

C

Calcifications, intrapulpal, in patients with pulpal dysplasia (Rao, Witkop, and Yamane), 682
parotid, in Sjögren's syndrome, 378 (Roentgeno-oddities)
unusual, at base of skull, 507 (Roentgeno-oddities)
Calxyl and zinc oxide and eugenol, reaction of normal and inflamed dental pulp in rats (Sela and Ulmansky), 425
Cancer, oral, causes of death in patients with (Thoma), 817
early effects of smoking on surface cytology of oral mucosa (Rubinstein, Medak, and Meyer), 131
Carcinogenesis, hamster cheek pouch, experimentally induced, effects of desalivation (Smiler), 838
variance in tissue irradiated with 200 KVP x-rays and cobalt-60 x-rays (Shklar et al.), 431
Carcinoma, adenocystic, of palate (Adkins and Campbell), 734
oral, patients, mandibular reconstruction in, using autogenous mandibular implants (Alvarado et al.), 11
use of surgical splint in treatment (Curtis et al.), 316
Carcinoma—Cont'd
primary, of tongue, relationship of syphilis to (Meyer and Abbey), 678
squamous, arising in dentigerous cyst (Chretien et al.), 809
Cardinal Cushing General Hospital, 583, 721 (Announcements)
Caries, dental, concept of immunity in (Sims), 670
Catholic Medical Center of Brooklyn and Queens, Inc., 722, 847 (Announcements)
Cementum and bone, pattern and width of collagen bundles in (Giansanti), 508
Cervical spine injuries, facial bone fractures associated with (Haisová and Krámová), 742
Cheilitis, mycotic; infection of lips by *Trichophyton rubrum* (Pokowitz and Hoffman), 201
Cleft, facial, transverse, surgical repair (Weinstein), 309
Cobalt-60 x-rays and 200 KVP x-rays, variance in hamster pouch carcinogenesis in tissue irradiated with (Shklar et al.), 431
Collagen bundles in bone and cementum, pattern and width (Giansanti), 508
widths of, effects of acids upon pathologic interpretation (Giansanti), 151
Columbia University, 722 (Announcement)
Condyle, mandibular, effects of intra-articular hydrocortisone and high condylectomy (Poswillo), 161
roentgenographic study of lateral movements (Alvares), 366
sagittal path movement, comparison of radiographic and prosthetic measurement (Freitas), 631
Condylectomy, high, effects of intra-articular hydrocortisone and, on mandibular condyle (Poswillo), 161
Condyloid process, impacted third molar in (Oikarinen and Altonen), 7
Consanguinity (Catena et al.), 207
Continuing education courses, 159, 302, 444, 586, 722 (Announcements)
Contraceptives, oral, influence of pregnancy and, on gingivae, comparative study (El-Ashiry et al.), 472
Craniofacial and oral manifestations of oculomandibulodyscephaly (Hallermann-Streiff syndrome) (Sharp and Kopel), 488
Craniometric analysis of growth patterns in guinea pig mandibles (Soni and Malloy), 292
Cultures, endodontic (*See* Endodontic cultures)
Cuspids, maxillary permanent, developmental absence, 647 (Roentgeno-oddities)
Cyanoacrylate cytotoxicity, in vitro bioassay (DeRenzis and Aleo), 803
Cysts, bilateral, of mandible, management (Stanback), 587
branchial, of oropharynx (Weitzner), 607
calcifying odontogenic (Chandi and Simon), 99

Cysts—Cont'd
dentigerous, bilateral, of mandible (Stanback), 587
squamous carcinoma arising in (Chretien et al.), 809
epidermoidal, in oral cavity (Sánchez Torres and Higa), 592
globulomaxillary (Christ), 515
hemorrhagic bone, of mandible (Khosla), 723
Cytology, surface, of oral mucosa, early effects of smoking (Rubinstein, Medak, and Meyer), 131, 700

D

Death, causes of, in patients with oral cancer (Thoma), 817
Demineralization, controlled, of bone specimens (Winkler, Jung, and Carr), 717
Dens in dente, 647, 782 (Roentgeno-oddities)
Dental aberrations in case of consanguinity (Catena et al.), 207
pulp (*See* Pulp)
radiography, phantom head for teaching (Clarke and Smith), 497
treatment of tubercular patients, droplet nuclei produced during (Duell and Madden), 711
Dentinal fluid, human, analysis (Coffey, Ingram, and Bjorndal), 835
Desalivation, effects on experimentally induced carcinogenesis in hamster cheek pouch (Smiler), 838
Diabetes mellitus, alteration in parotid salivary flow (Conner, Iranpour, and Mills), 55
Diseases of oral mucosa, atlas of, 158 (B. rev.)
Division of Dental Health, three new leaflets on fluoridation, 301 (Announcement)
Droplet nuclei produced during dental treatment of tubercular patients (Duell and Madden), 711
Dysplasia, pulpal (Rao, Witkop, and Yamane), 682

E

Ecology of alveolar bone loss (Cheraskin and Ringsdorf), 333
Education, professional, challenges to (Orbison), 222
Endocarditis, bacterial, fatal, following tooth removal (Salman, Harrigan, and Palladino), 749
Endodontic cultures, effect of systemic tetracycline (Burke and Shipman), 276
technique (Morse), 540
procedures, biologic effects on developing incisor teeth (Torneck and Smith), 258
treatment, one-visit, incidence of pain following (Fox et al.), 123
Endodontics, 105, 252, 413, 533, 682
Enzymes in adenoameloblastoma, histochemical observations (Mori, Tamura, and Kawakatsu), 659
Erythema multiforme; recent research on oral mucous membrane diseases (Shklar), 246
Extraction, third molar, generalized urticaria following (Hart), 325
wounds, experimental, effect of anabolic steroid on healing (Tennenbaum and Shklar), 824
Extrapyramidal reactions, successive, to two phenothiazines in one patient (Meyer), 48

F

Facial bone fractures associated with cervical spine injuries (Haisová and Krámová), 742
cleft, transverse, surgical repair (Weinstein), 309
Fibromatosis, gingival, idiopathic, with extensive osseous involvement in 12-year-old boy (Fritz), 755
Films in oral surgery, award for, 722 (Announcement)
Fluoridation leaflets available from Division of Dental Health, 301 (Announcement)
Fluorides and human health, 848 (B. rev.)
Fluoroscopy, intraoral, at low radiation levels (Savara, Parker, and Irwin), 639
Fractures, dental, radiography (Degering), 213
facial bone, associated with cervical spine injuries (Haisová and Krámová), 742
simplified interosseous wiring technique (Foote), 174
genial tubercle, conservative management (Maw and Lindsay), 445
Fusion; anomalous tooth development, 782 (Roentgeno-oddities)

G

Genial tubercles, enlarged, sialolithiasis and, 506 (Roentgeno-oddities)
fractures, conservative management (Maw and Lindsay), 445
Genioplasty and anterior maxillary ostectomy in correction of Class II, Division 1 malocclusion (Bell and Alessandra), 328
Giant-cell tumor in patients with Paget's disease (Brooke), 230
Gingivae, comparative study of influence of pregnancy and oral contraceptives (El-Ashiry et al.), 472
Gingival fibromatosis, idiopathic, with extensive osseous involvement in 12-year-old boy (Fritz), 755
Gingivostomatitis, herpetic, in adults (Davies and Longson), 41
Glossectomy, traumatic (Tenzer and Orozco), 182

XUM

Glossitis, atrophic luetic (Captline et al.), 192
median rhomboid, geographic tongue, fissured tongue, and hairy tongue, prevalence among 3,611 Minnesota schoolchildren (Redman), 390
Granuloma, eosinophilic, mandibular, studied with light and electron microscopes (Csiba et al.), 796
Growth patterns in guinea pig mandibles, craniometric analysis (Soni and Malloy), 292
Gunshot wound of oral cavity (Marano and Smart), 178

H

Hallermann-Streiff syndrome (oculomandibulodyscephaly), craniofacial and oral manifestations (Sharp and Kopel), 488
Healing, improved, of experimental defects in canine mandible by grafts of decalcified allogenic bone (Narang et al.), 142
of experimental extraction wounds, effect of anabolic steroid (Tennenbaum and Shklar), 824
Health, human, fluorides and, 848 (B. rev.)
Hemoglobinopathies, oral manifestations (Halstead), 615
Herpetic infection in adults (Davies and Longson), 41
Histiocytosis X; mandibular eosinophilic granuloma studied with light and electron microscopes (Csiba et al.), 796
Hospital patients, new book for, 302 (Announcement)
Howard University, 847 (Announcement)
Hydrocortisone (intra-articular) and high condylectomy, effects on mandibular condyle (Poswillo), 161
Hyperparathyroidism, primary (Bramley and Dwyer), 464
Hypertrophy, benign bilateral masseteric, with temporal muscle involvement (Kessel), 450
Hypoparathyroidism, idiopathic juvenile, with superficial moniliasis (Nally), 356
Hysterical trismus (Weinberg et al.), 460

I

Immunity in dental caries, concept of (Sims), 670
Implantations, plastic tooth, in baboons (Hamner, Reed, and Hand), 555
Implants, autogenous mandibular, use in mandibular reconstruction in patients with oral carcinoma (Alvarado et al.), 11
Incisors, central, malpositioned supernumerary, 781 (Roentgeno-oddities)
maxillary, human, apical root canal anatomy (Altman et al.), 694
two-rooted, 380 (Roentgeno-oddities)
developing, biologic effects of endodontic procedures (Torneck and Smith), 258
Indiana University, 300 (Announcement)
Inflammations, chronic sclerosing, of jaw (Panders and Hadders), 396
Injuries, cervical spine, facial bone fractures associated with (Haisová and Krámová), 742
International Conference on Oral Surgery, fourth, 721 (Announcement)
Intravenous agents used in dentistry, psychomotor effects (Newman et al.), 34

J

Jaws (*See also* Mandible, Maxilla)
chondrogenic tumors (Potdar and Srikhande), 649
chronic sclerosing inflammations (Panders and Hadders), 396
osteogenic sarcoma (Potdar), 381

L

Lactobacillus acidophilus; treatment of oral ulcerations with Bacid (Gertenrich and Hart), 196
Lead foil, procedure for lining open-end dental x-ray cylinders with (Wuehrmann), 64
monoxide and other metallic oxides, periapical tissue reaction to root canal fillings with (Erausquin), 545
Leukocyte counts in saliva of adults before and after extraction of teeth (Lantzman and Michman), 766
Leukoplakia; recent research on oral mucous membrane diseases (Shklar), 244
Lichen planus, recent research on oral mucous membrane diseases (Shklar), 242
Lips, infection by *Trichophyton rubrum* (Pokowitz and Hoffman), 201
Lupus erythematosus, chronic discoid; recent research on oral mucous membrane diseases (Shklar), 245

M

Macrodontia, 221 (Roentgeno-oddities)
Malocclusion, Class II, Division 1, correction by anterior maxillary osteotomy and genioplasty (Bell and Alessandra), 328
Mandible, eosinophilic granuloma, studied with light and electron microscopes (Csiba et al.), 796
guinea pig, craniometric analysis of growth patterns (Soni and Malloy), 292
hemorrhagic bone cyst (Khosla), 723
interesting artifact in, 220 (Roentgeno-oddities)

Mandible—Cont'd
management of bilateral cysts (Stanback), 587
metastatic tumors of (Bertelli, Costa, and Miziara), 21
osteogenic sarcoma (Cocke and Wade), 601
osteomyelitic lesion, immediate bone graft following resection (Khosla), 29
reconstruction in patients with oral carcinoma using autogenous mandibular implants (Alvarado et al.), 11
Mandibular asymmetry, augmentation bone graft for correction (Marano, Kolodny, and Smart), 759
block injection, tracing course of (Galbreath and Eklund), 571
condyle (*See* Condyle)
implants, autogenous, use in mandibular reconstruction in patients with oral carcinoma (Alvarado et al.), 11
Marsupialization technique in management of bilateral cysts of mandible (Stanback), 587
Maxilla, acute osteomyelitis of, in newborn (Niego), 611
Maxillary sinus involvement as endodontic complication (Selden and August), 117
Mexico City Dental Association, 584 (Announcement)
Microfilarial infection of oral structures in cotton top marmoset *(Saguinus oedipus)* (Dreizen, Smith, and Levy), 527
Microradiography of teeth (Freitas and Manson-Hing), 774
Molar, four-rooted mandibular third, and unusually located supernumerary tooth, 646 (Roentgeno-oddities)
third, impacted, in condyloid process (Oikarinen and Altonen), 7
Moniliasis, superficial, idiopathic juvenile hypoparathyroidism with (Nally), 356
Mucous membrane diseases, oral, recent research (Shklar), 242
Muscles, genioglossus, displacement of bony origins; conservative management of genial tubercle fractures (Maw and Lindsay), 445
masseter, benign bilateral hypertrophy with temporal muscle involvement (Kessel), 450
rat tongue, regenerative changes following crushing injury (Standish and Eversole), 87

N

Nasal impaction, traumatic (Waugh), 730
Nerve fibers, resistance to pulpal necrosis (Mullaney, Howell, and Petrich), 690
Nevus, white sponge (Kamalamma et al.), 51
Newborn, acute osteomyelitis of maxilla (Niego), 611

O

Oculomandibulodyscephaly (Hallermann-Streiff syndrome), craniofacial and oral manifestations (Sharp and Kopel), 488
Oral cancer, causes of death in patients with (Thoma), 817
cavity, epidermoidal cysts (Sánchez Torres and Higa), 592
manifestations of hemoglobinopathies (Halstead), 615
medicine, 41, 192, 333, 472, 615, 766
mucosa, atlas of diseases of, 158 (B. rev.)
early effects of smoking on surface cytology (Rubinstein, Medak, and Meyer), 131, 700
mucous membrane diseases, recent research (Shklar), 242
pathology—American Academy of Oral Pathology, 69, 222, 381, 508, 649, 784
general section, 390
roentgenology, 60, 207, 366, 497, 631, 774
surgery films, awards for, 722 (Announcement)
operative, 1, 161, 303, 445, 587, 723
seminar, 300 (Announcement)
Oropharynx, branchial cyst (Weitzner), 607
"Oscars in Oral Surgery," 722 (Announcements)
Ostectomy, anterior maxillary, and genioplasty in correction of Class II, Division 1 malocclusion (Bell and Alessandra), 328
Osteofibromas, large, surgical removal (Budal), 303
Osteomyelitis, acute, of maxilla in newborn (Niego), 611
chronic, immediate bone graft following resection of mandibular lesion (Khosla), 29
sclerosing inflammations of jaw (Panders and Hadders), 396
involving embedded tooth, 66 (Roentgeno-oddities)

P

Paget's disease, giant-cell tumor in patients with (Brooke), 230
Pain, incidence following one-visit endodontic treatment (Fox et al.), 123
Palate, adenocystic carcinoma (Adkins and Campbell), 734
Parachlorophenol, antimicrobial effectiveness (Harrison and Madonia), 267
Parotid calcifications in Sjögren's syndrome, 378 (Roentgeno-oddities)
salivary flow, alteration in diabetes mellitus (Conner, Iranpour, and Mills), 55

XUM

Pemphigus and pemphigoid; recent research on oral mucous membrane diseases (Shklar), 246
Periapical-periodontal disease extension resulting in maxillary sinus involvement (Selden and August), 117
Periosteum, postoperative osteogenic capacity; surgical removal of large osteofibromas (Budal), 303
Phantom head for teaching dental radiography (Clarke and Smith), 497
Phenothiazines, successive extrapyramidal reactions to two, in one patient (Meyer), 48
Plastic tooth implantations in baboons (Hamner, Reed, and Hand), 555
Postgraduate courses at military installations, 584 (Announcement)
Pregnancy and oral contraceptives, comparative study of influence on gingivae (El-Ashiry et al.), 472
as factor in growth of giant-cell lesion of primary hyperparathyroidism (Bramley and Dwyer), 464
Premolars, mandibular supplemental, recurring (Morgan, Morgan, and Crouch), 501
Protrusion, bimaxillary, and mandibular retrusion, surgical correction (Lyons), 1
Psoriasis, oral (Pisanty and Ship), 351
Psychomotor effects of intravenous agents used in dentistry (Newman et al.), 34
Pulp, dental, normal and inflamed, reaction to Calxyl and zinc oxide and eugenol in rats (Sela and Ulmansky), 425
dysplasia (Rao, Witkop, and Yamane), 682
lesions covered with albumin (Molven), 413
necrosis, resistance of nerve fibers (Mullaney, Howell, and Petrich), 690
removal, partial and total; biologic effects of endodontic procedures on developing incisor teeth (Torneck and Smith), 258

R

Radiation; variance in hamster pouch carcinogenesis in tissue irradiated with 200 KVP x-rays and cobalt-60 x-rays (Shklar et al.), 431
Radiographs, hard- and soft-tissue profile, with one exposure (Wooten and Tarsitano), 374
Radiographic and prosthetic measurement of sagittal path movement of mandibular condyle (Freitas), 631
changes leading to diagnosis of homozygous hemoglobin C disease; oral manifestations of hemoglobinopathies (Halstead), 615
Radiography, dental, phantom head for teaching (Clarke and Smith), 497
of dental fractures (Degering), 213
Radium needles, use of surgical splint as guide to placement in treatment of oral carcinoma (Curtis et al.), 316
Regenerative changes in rat tongue muscle following crushing injury (Standish and Eversole), 87
Replantation of teeth, intentional, acrylic splint for (Biven, Ritchie, and Gerstein), 537
Research, 131, 284, 431, 555, 700, 824
Retrusion, mandibular, and bimaxillary protrusion, surgical correction (Lyons), 1
Rieger's syndrome (Langdon), 788
Roentgeno-oddities, 66, 220, 378, 505, 646, 781
Root canal anatomy, apical, of human maxillary central incisors (Altman et al.), 694
fillings with zinc, titanium, lead, and aluminum oxides, periapical tissue reaction (Erausquin), 545
organisms; antimicrobial effectiveness of parachlorophenol (Harrison and Madonia), 267
effect of systemic tetracycline on endodontic cultures (Burke and Shipman), 276
treatment; evaluation of success of endodontically treated teeth (Heling and Tamshe), 533
in rat molars, alveolodental ankylosis induced by (Erausquin and Devoto), 105
Roundworm; microfilarial infection of oral structures in cotton top marmoset *(Saguinus oedipus)*, 527

S

Sagittal path movement of mandibular condyle, comparison of radiographic and prosthetic measurement (Freitas), 631
Saliva of adults, leukocyte counts in, before and after extraction of teeth (Lantzman and Michman), 766
role in carcinoma production; effects of desalivation on experimentally induced carcinogenesis in hamster cheek pouch (Smiler), 838
Salivary flow, parotid, alteration in diabetes mellitus (Conner, Iranpour, and Mills), 55
glands; adenocystic carcinoma of palate (Adkins and Campbell), 734
minor, sialolithiasis with sialoadenitis (DeGregori and Pippen), 320
Sarcoma, osteogenic, of jaws (Potdar), 381
of mandible (Cocke and Wade), 601
Scientific writing (Paul), 185
Sialolithiasis and enlarged genial tubercles, 506 (Roentgeno-oddities)
with sialoadenitis of minor salivary gland (DeGregori and Pippen), 320
Sjögren's syndrome, parotid calcifications in, 378 (Roentgeno-oddities)
Skull, unusual calcification at base, 507 (Roentgeno-oddities)

Smoking and aphthous ulcers, association between (Shapiro, Olson, and Chellemi), 624
early effects on surface cytology of oral mucosa (Rubinstein, Medak, and Meyer), 131, 700
Splint, surgical, use in treatment of oral carcinoma (Curtis et al.), 316
Steroid, anabolic, effect on healing of experimental extraction wounds (Tennenbaum and Shklar), 824
Stomatitis, recurrent aphthous, and Behçet's disease (Francis), 476
Surgical correction of bimaxillary protrusion and mandibular retrusion (Lyons), 1
Syphilis; atrophic luetic glossitis (Captline et al.), 192
relationship to primary carcinoma of tongue (Meyer and Abbey), 678

T

Teeth (*See also* specific teeth)
avulsed, secondary missile in gunshot wound of oral cavity (Marano and Smart), 178
bud, aberrant, 379 (Roentgeno-oddities)
development, anomalous, 782 (Roentgeno-oddities)
developmental defects, in Rieger's syndrome (Langdon), 788
displacement into nasal cavity; traumatic nasal impaction (Waugh), 730
embedded, osteomyelitis involving, 66 (Roentgeno-oddities)
endodontically treated, evaluation of success (Heling and Tamshe), 533
extraction, control of bacteremia associated with (Jones et al.), 454
fatal bacterial endocarditis following (Salman, Harrigan, and Palladino), 749
leukocyte counts in saliva of adults before and after (Lantzman and Michman), 766
fractures, radiography (Degering), 213
intentional replantation, acrylic splint for (Biven, Ritchie, and Gerstein), 537
microradiography (Freitas and Manson-Hing), 774
missing (*See* Anodontia)
permanent, of *Macaca rhesus,* morphogenesis of vascular supply (Cutright), 284
plastic, implantations in baboons (Hamner, Reed, and Hand), 555
supernumerary (Foley and del Rió), 60
central incisors, malpositioned, 781 (Roentgeno-oddities)
unusually located, and four-rooted mandibular third molar, 646 (Roentgeno-oddities)
transpositioning, 505 (Roentgeno-oddities)
Temporomandibular joint disorders; effects of intra-articular hydrocortisone and high condylectomy on mandibular condyle (Poswillo), 161
Tetracycline, systemic, effect on endodontic cultures (Burke and Shipman), 276
Titanium dioxide and other metallic oxides, periapical tissue reaction to root canal fillings with (Erausquin), 545
Tongue, geographic, fissured tongue, median rhomboid glossitis, and hairy tongue, prevalence among 3,611 Minnesota schoolchildren (Redman), 390
muscle, rat, regenerative changes following crushing injury (Standish and Eversole), 87
primary carcinoma of, relationship of syphilis to (Meyer and Abbey), 678
traumatic glossectomy (Tenzer and Orozco), 182
Transplants, lyophilized homogenous osseous-dental, application to large bones in rabbits and monkeys (Spirescu et al.), 438
Transpositioning, 505 (Roentgeno-oddities)
Trichophyton rubrum, infection of lips by (Pokowitz and Hoffman), 201
Trismus, hysterical (Weinberg et al.), 460
Tuberculosis, pulmonary; droplet nuclei produced during dental treatment of tubercular patients (Duell and Madden), 711
Tufts University School of Dental Medicine, 584 (Announcement)
Tumors (*See also* specific tumors)
chondrogenic, of jaws (Potdar and Srikhande), 649
giant-cell, in patients with Paget's disease (Brooke), 230
of jaw leading to diagnosis of primary hyperparathyroidism (Bramley and Dwyer), 464
metastatic, of mandible (Bertelli, Costa, and Miziara), 21
odontogenic adenomatoid (adenoameloblastoma) (Giansanti, Someren, and Waldron), 69

U

Ulcerations, oral, treatment with Bacid (Gertenrich and Hart), 196
Urticaria, generalized, following third molar extraction (Hart), 325
University of Nebraska Medical Center in Omaha, 846 (Announcement)

V

Vascular supply to permanent teeth of *Macaca rhesus,* morphogenesis (Cutright), 284

W

White House Conference on Food, Nutrition and Health, 301 (Announcement)
Wiring, interosseous, simplified technique (Foote), 174
Worcester City Hospital, 583, 847 (Announcements)

XUM

X

X-ray cylinders, open-end dental, procedure for lining with lead foil (Wuehrmann), 64
200 KVP and cobalt-60, variance in hamster pouch carcinogenesis in tissue irradiated with (Shklar et al.), 431

Z

Zinc oxide and eugenol and Calxyl, reaction of normal and inflamed dental pulp in rats (Sela and Ulmansky), 425
and other metallic oxides, periapical tissue reaction to root canal fillings with (Erausquin), 545
